TRAINING BULLETIN

November 3, 2020

A new objective at El Segundo PD is to have the ability to produce a statistical report related to ALPR incidents. In an effort to accomplish this task and properly track ALPR related incidents, an ALPR label has been created in MARK43. When generating a report related to an ALPR "hit", enter the event date/time, your name, and then click on EDIT in the LABELS section. This label shall be used for any ALPR arrest, crime report or incident.

Please review the following steps and use appropriate labels as a quick and easy way to route reports related to other statistical categories.

Report - Mark43
